Throughout this past year we have enjoyed success in student government and student activity, and in maintaining our high standard in scholastic and extracurricular activities in our new collegiate.

We would like to express our appreciation to the Etcetera staff, the Flinonian staff and club executives for their fine efforts. Thanks also go to Mr. George, Mr. Dougall, our secretary and junior secretary, Marlene Sochan and Wanda Ridley, and all members of student council for their assistance during the year.

To the first graduates of Hapnot Collegiate Institute, we wish every future success.

We hope the term of office of the new Lady and Gent Stick will be as rewarding as ours has been.

VALEDICTORY

It is a great honor to be chosen as Valedictorian of the 1966 graduating class. This an unique class when one realizes that it will be the last to graduate from the old Hapnot Collegiate. Twenty-three classes have preceded ours in a very fine tradition. It is, therefore, our duty and our obligation to uphold the high standards of citizenship, leadership, faith, and enthusiasm which has become characteristic of so many previous Hapnot Collegiate graduates.

To us all, graduation is a special and wonderful event to be remembered for the rest of our days. It may be represented as a turn in the path of life. We are now approaching the curve and to get around it we must pass our examinations in June. Once we are around the bend we will have turned from youth to young adults and the problems and responsibilities of the competitive world will be thrust upon us. We like to think that we are ready to assume these responsibilities and to take our place in the community as young adults. We only hope that others think of us in this way as well.

A ceremony such as this fills our hearts with many memories and thoughts. We are thinking now of all that we owe to our parents. They have loved us at times when it was inconceivable to have been loved; they have guided us through difficult times, and they have dedicated their lives to raising us. We thank them, but somehow, a simple thank-you does not seem enough. As for our teachers, we want to thank them for their patience, kindness, dedication, and stimulating efforts in enlarging our mental horizons. We are thankful, too, for the environment in which we have been raised and for the facilities offered so generously to us by the residents of Flin Flon.

As we sit here this evening, memories from twelve years of school life fill our hearts. They are wonderful and exciting memories of our growing years. But when we realize that these may have been the best years of our life, we can also be overcome by sadness because these years cannot be relived.

Graduation is a time when we must make resolutions regarding our future desires and ambition.

Fellow graduands, let us resolve to face whatever lies ahead squarely, and to act with vigor and determination. Let us strive for greater things. Let us use our graduation from high school as a stepping stone to our next goal in whatever field or occupation that we choose. But let us not forget that we shall be a much greater credit both to ourselves and to our community if we resolve to be students for the rest of our life.

In the words of Henry Adams, an American historian, "They know enough who know how to learn."

For you of the graduating class of this significant year 1967 there will be many memories. You will remember the new school and all the problems of getting settled in it. You will all have personal memories, and none of you will remember the year in precisely the same way. For most of you the year will be remembered as the last one in the safety and assurance of your childhood home.

The future which you face is as unknown as it ever was but it is an exciting prospect and one for which many of the older generation envy you. Perhaps Wordsworth’s words about another time apply equally well to the present.

"Bliss it was in that dawn to be alive,  
But to be young was very heaven!"

One often hears reference to the ‘last frontier’ or to the ‘new frontier’. These terms are applied to the exploration of space, or of our Canadian Arctic. There are certainly a few physical frontiers left to explore and they will attract the adventurous among you.

Your idealism will also lead some of you to work on another frontier, not a new one, but one as old as history. The frontier in the minds of men is a frontier in the sense that it is an area in which discovery is still taking place. We know very little about why people act as they do toward one another. Between individuals who are caught in dangerous or tragic circumstances, differences of race, creed, or political ideology matter little. When whole nations are caught in the same kind of circumstances, however, they act in quite different ways. No one knows how long we may have to solve the problems of international relations but it is an urgent problem.

Whatever your future plans may be, there are many things to be done and many things to be learned. I hope that in some ways you have been prepared by your school experience for work which lies ahead. It will be your great privilege and responsibility to try to find answers which have escaped earlier generations. We, who have taught you, will always remember you and wish you well.

ACTIVITIES

At present, Phi Beta is much enthused over the future plans of the house. Each house is given a dance to sponsor, and Phi Beta, too, will be having a dance.

The volleyball teams have been formed, and though they are not winning every game, each player is putting forth his or her best effort. Sweatshirts are going to be ordered in the house color and with the Beta symbol.

The Snow Carnival is also one of the winter projects for Phi Beta who will be participating with our Queen candidate, broomball team, dog sled team, girls' hockey team, and a snowshoe racing team.

Phi Beta will also be participating in all other house activities which will be held throughout the year.

EXECUTIVE: Linda McIntosh, Bobby Lister, Linda Greenhow, Mr. Rudd, Myrna Bell, Bill McDonald.
The colour of Phi Gamma is gold and during Spirit Week we wore gold ribbons and gold clothes. We also plan to get gold sweatshirts with the Gamma symbol.

The Snow Carnival planned for February was Phi Gamma’s brain-wave. In it we plan to carry off the honours in broomball, snowshoeing, girls’ hockey, and sculpture. Gamma is also planning a dance for the student body which, as we know will be a complete success.

Phi Gamma has also been declared winner of the house volleyball tournament and this is a good indication of the things to come from Hapnot’s best house.

PHI LAMBDA

Phi Lambda is one of the four houses of Hapnot Collegiate. Its colour is bright green. The executive of Phi Lambda is:

President: - Bettie Bradt
Secretary Treasurer: - Beryl Berry
Athletic Representative: - Dave Wilson
Pep Club Representative: - Aleida Evans
Etcetera Representative: - Leigh Campbell
Teacher Representative: - Mr. Webb

So far this year, Phi Lambda has had two general house meetings and several executive meetings. We organized a volleyball team for School Spirit Week which was not victorious; however, the spirit was there. Hats with the house symbol on them were made to wear on House Colour Day. Lambda provided the food for the first school dance.

In the months to come we are planning to buy sweatshirts. Our president, with our support, is helping plan the Snow Carnival to be held in February. Above all, we Lambdas are proving what everyone knows:

PHI LAMBDA IS THE GREATEST!!!
EXECUTIVE: John Rutley, Marga Judd, Bill Fric, Ken Mark, Gaye Henry, Larry Klewchuk.

PHI RHO

Phi Rho has planned their projects for the coming term. For the Snow Carnival they have decided to enter some of the reps and coming athletes in the hockey and broomball tournaments. Some are shaping up marvelously for the Dog Sled Race which is to be part of the Snow Carnival in February.

HAIL TO CONTAMINATION (2000 A.D.)

Lakes and rivers are cluttered with trash
   And fresh water's disappearing in a terrible flash,
The oceans are a soapy mess I can't describe
   And gone are the fish that couldn't survive,
Clean air, you know, is a thing of the past
   For now we breathe carbon monoxide gas;
And the smelter smoke that hovers over every town
   Helps to keep the population down,
To get lung cancer you don't need a cigarette
   (The foul air will cause a better death.)
If your gas mask happens to spring a leak
   We won't be seeing you for many a week,
And if they forget the ton of chemicals for the water,
   God forbid the slaughter!
I just heard a rumor the other day
   That the Black Death is coming our way.
Oh, well what's the matter?
   At least the rats are getting fatter!
Contamination, thou art our national obsession —
   So may this poem be our confession:
Pretty soon, without a solution to pollution,
   I fear a bowel movement will cause a revolution!!

OFFICIAL OPENING

Margo Liss accepts key to the school.

Mr. George accepts key on behalf of the faculty.

Hapnot Collegiate was officially opened on September 16, 1966. Chairman of the opening was Mr. V. Hook, a member of the school board.

The key to the new school was presented to Mr. A. Krassilowsky, chairman of the Flin Flon School Board. In turn, he presented the key to Lady Stick, Margo Liss. Then Mr. George accepted the key on behalf of the faculty and Gent Stick, Jack Hanna, accepted it on behalf of the student council.

The assembly was addressed by Mr. H. P. Moffat who represented the Minister of Education of Manitoba.

Messages of congratulations were brought by the towns of Flin Flon, and Creighton; by the Hudson Bay Mining and Smelting Company; by the School Boards of Flin Flon, Sir Maurice Roche, and Creighton; by Inspector Marshall; by former superintendent Mr. I. Hamilton; and by the Administrator of Education of Northern Areas and the Province of Saskatchewan.

A tour of the new school was conducted following the official ceremonies.

Inspector Marshall addresses the assembly.

21 FIELD SQUADRON
ROYAL CANADIAN ENGINEERS, FLIN FLON

Since 1942 Flin Flon has had an Army Reserve Unit. 21 Field Squadron was formed in 1949 when it became evident that this location lent itself to an Engineer Squadron. It soon became one of the most efficient Militia Squadrons in Canada.

21 Field Squadron has taken part in many community projects, took an active part in 1950 flood fighting operations in Winnipeg, constructed two bridges for the Provincial Government at Waskesiu Falls.

One week each year is spent at a regular Army camp training with the Regular Force Engineer Unit.

This yearbook is the first of Hapnot Collegiate and I hope it will keep alive memories of the new school and a renewed school spirit. I would like to thank the hard-working typing and advertising staff. All our thanks go to our advisers Miss Dmytryk, Mr. Overland, and Mrs. Creighton for all their assistance.
Best of luck to Leigh and next year's staff.
